Khatarta dheeraadka ah ee COVID-19

Sabab la xariirta shaqaale yari ka jirta xarumaha daryeelka caafimaadka, shaqaalahu uu ku dhaco cudurka COVID-19 ayaa ku laabanaaya shaqada ayagoo wali cudurka faafin kara. Tani waxay kordhinaysaa khatarta faafinta COVID-19.

Shuruudaha iyo Talooyinka Qalabka Neefta

L&I (Waaxda Shaqada ee Shqada iyo Shaqaalah) ee Waaxda Caafimaadka iyo Badqabka (Division of Occupational Safety and Health (DOSH)) qalabka neefta oo la xaqiijiyay inay qofka le'eg yihii inuu isticmaalo shaqaale kasta oo soo gala qolka bukaan looga shakiyay ama la xaqiijiyay inuu qabo COVID-19.

DOSH ayaa ku talinaysa, laakiin qasab kama dhigayso, qalabka neefta oo la xaqiijiyay inuu qofka le'eg yahay inay xidhaan shaqaalahu ka dhex shaqaynaaya dhismaha ay joogaan shaqaalahu looga shakiyo ama laga helo COVID-19.

Barnaamijka agabka neefsiga oo buuxa, ayna ku jiraan qalab qofka lagu cabiray, ayaa qasab ah marka loo shaqeeyaashu ay ka doonayaan in shaqaaluhu adeegsadaan qalabka neefta oo ah qalabka Difaaca qofka (Personal Protective Equipment, PPE) — ayadoon laga eegayn in DOSH qasab ka dhigayso ama aysan ka dhigayn qalabkaas.

Qalabka neefta — Dookha Ugu Badqabka badan

Agabka neefta ayaa la hubiyaa lana sharchiyeeyaa si loo xaqiijiyo inay leeyihiin heerka difaaca sareeya ee la isku halayn karo oo ay helaan dadka xiran — heer aad uga sareeya maaskarooyinka wajiga (tusaale, maaskarooyinka qaliinka ama caafimaadka) iyo gafuur xirkka. Wawa intaas dheer:

- Daraasaadka ayaa muujinaaya in maaskarooyinka N95 ay qabtaan ugu yaraan shaqada ay qabtaan maaskarooyinka qaliinka si loogu adeegsado difaac ahaan, xataa markay leeyihiin shabaqa laga neefsado*.
- Qalabka neefsiga ayaa si buuxda u xira geesaha afka iyo sanka qofka xiran si ka fiican maaskarada ama gafuur xirkka marada ah. Ku filnaanshaha xirista waxaa lagu xaqiijin karaa tijaabada le'ekaanta ee qalabka neefta; kaasoo ah wax aan lagu samayn karin maaskarooyinka.
- Maaskarooyinka qaliinka ee N95 (oo leh Ogolaanshaha Maamulka Cuntada iyo Daawada (Food and Drug Administration, FDA) ayaa la heli karaa si loo xakameeyo cudurka ama loogu isticmaalo PPE ahaan shaqooyinka difaaca ka dhanka ah fariinka dareeraha la sheego.
